# Nebraska Sales and Use Tax

For more information, see the [Sales and Use Tax Regulation](#) on our website.

## Sales tax is...

- ... a transactional tax,
- ... based on the transaction,
- ... rather than the item sold.

Where the item or service is delivered determines the local sales tax rate and to whom the tax is due.

## A sale is...

- ... the transfer of title or possession,
- ... of an item or taxable service,
- ... for consideration.

# Overview of Sales Tax

- What is a sales transaction?
  - Sales tax is calculated on the gross receipts.
  - Delivery location determines the rate of local tax.
  - Retailers must collect and report sales tax or document why they didn't.

## **A lease or rental...**

...is a sale,

...because there is a  
transfer of possession.

Sales tax is due on each payment.

- All sales transactions are presumed taxable.
- Sales tax must be separately stated (with 4 exceptions).

# Documenting Exempt Sales

- **Form 13**
- Sellers keep completed copies of Form 13.
- A “blanket” form is valid until it is revoked in writing by the purchaser.

# What is Use Tax?

- Use tax is due when Nebraska sales tax has not been paid on a taxable item or service purchased for use in Nebraska.
- Sales and use tax are not both due on the same transaction.
- The big difference is who remits the tax -
  - Sales tax is collected and remitted by the seller.
  - Use tax is paid directly to the Department by the purchaser/consumer.

# Use Tax and Sales Tax Have These Things in Common –

- They are imposed on the same transactions.
- They have the same exemptions.
- They are calculated at the same rate.
  - Where delivery occurs or
  - Where first usage in Nebraska takes place.

- Use tax is often due when purchases are made from an out-of-state seller
  - Internet, catalog, mail order
  - Magazines and journals by subscription
- Use tax is due when the business withdraws tax-free inventory for business or personal use (including donations)
  - Auto mechanic
  - Hair salon

Note: Be sure to maintain good records!

# **Events and Transactions**

- When event planners are hired to plan an activity, they can have transactions with many vendors, as well as with their client.
- We will discuss transactions that occur between:
  - Event planners and 3<sup>rd</sup> party vendors
  - Event planners and customers (event holders)
  - Event holders and event attendees

## Transactions with 3<sup>rd</sup> Party Vendors

- When purchasing tangible personal property (TPP) from 3<sup>rd</sup> party vendor:
  - Issue Nebraska Form 13, Section A, to vendor; or
  - Pay the 3<sup>rd</sup> party vendor Nebraska sales tax and take credit on Form 10.

---

# **Transactions Between Event Planner and Customer**

The event planner has several options when invoicing their customers for the event.

- Lump sum billing
- Providing professional services and having the customer pay 3<sup>rd</sup> party vendors directly
- Gross receipts method, where the event planner purchases items tax exempt and charges the customer sales tax on the taxable items

Note: Make sure you have required documents in place for the option you choose.

# Example

An event planner is handling all aspects of an event for a fundraising activity in Lincoln.

- The customer is a 501(c) organization that is not exempt from sales tax.
- The event planner will contract with 3<sup>rd</sup> party vendors for all necessary items, including arranging for:

Hall

Music

Admission

Catering

Silent auction

Decorations

Invitations

Note: Reimbursements are a retail sale between event planner and customer.  
Tax must be invoiced and collected.

# Example

## Lump Sum Billing

### Customer's invoice:

Fundraising Event	\$10,000 Taxable (T)
Sales tax (7%)	<u>+700</u>
Total	\$10,700

# Example

## Customer Pays 3<sup>rd</sup> Party Vendor Directly

### Customer's invoice:

Event Planner Services	<u>\$2,700</u>	Nontaxable (NT)
Total	\$2,700	

3<sup>rd</sup> party vendors will **directly invoice the customer** for:

Hall Rental (includes tables and chairs)	\$2,000 (NT)
Music	1,000 (NT)
Catering	3,500 (T)
Decorations	500 (T)
Invitations	300 (T)

## Gross Receipts Method

- The event planner arranges and pays the 3<sup>rd</sup> party vendors for all goods and services tax exempt for resale by providing the vendors with Forms 13, Section A.
- The event planner will line itemize the invoice for the customer, including a line item for professional services reasonably associated with the time spent on arranging for each purchase of a good or service.
- The tax is calculated on the gross receipts for each purchase arranged, including the professional service time allocated to it.

Note: If the event planner uses any other method to calculate the tax, it must be reasonable and supported by appropriate records.

# Gross Receipts Method – Example 1

## Customer's invoice:

Hall Rental	\$2,000.00 (NT)	
Music	1,000.00 (NT)	
Professional Service	+ <u>850.00 (NT)</u>

Total		\$10,490

Sample of event planner's invoice with professional services lump sum billed.  
If the professional services are not separated for taxable and nontaxable items,  
the full amount for professional services becomes subject to tax.

# **When Event Planner Owns the Facility**

If the customer is required to purchase catering or beverage service from the event planner, all charges for the entire event are subject to sales tax.

# When Event Planner Owns the Facility

## Customer's invoice:

Hall Rental	\$ 3,000	Taxable (T)
Food and Beverage Service	7,000	Taxable (T)
Sales tax (7%)	<u>+ 700</u>

# **Transactions Between Event Holders and Event Attendees**

# When Events Include Retail Sales

# When Events Include Sales

## Example: Banquet

- An organization holds a fundraising banquet in Scottsbluff.
- The total price of a ticket to this event is \$250.
- The fair market value of the meal is \$50.

# When Events Include Sales

## Example: Silent Auction

- An organization is holding a fundraising banquet with a silent auction.
- Auction item is Nebraska Husker signed football.
- The fair market value of the football is \$25.

See the difference in the amount of sales tax due depending on whether or not the fair market value is displayed

# When Events Include Sales

## Example: Silent Auction

The winning bid is \$125.00. The invoice would be calculated as follows:

### Method 1

Sales tax 7%	1.75
Donation	+ <u>100.00</u>
Total	\$126.75

Sales tax 7%	+ <u>8.75</u>	
Total	\$133.75	

# When Events Include Sales

## Example: Mud Run

- A nonprofit organization holds a fundraising mud run where the course is closed to the general public.
- Included with this event, you receive:
  - Admission
  - T-shirt
  - Water bottle

Since the event is being held in a controlled area, the admission is taxable. The fair market value must be determined on the admission, t-shirt, and water bottle and all are subject to sales tax.

# When Events Include Sales

## Example: Half Marathon

- A nonprofit organization holds a fundraising half marathon on the public streets in Ord.
- Included with this event, you receive:
  - Admission
  - T-shirt
  - Water bottle

Since the organizer cannot control the venue, this admission is not taxable. The nonprofit must pay the sales or use tax on the t-shirt and water bottle.
